1.18 Release notes

Welcome to the uEducateUs 1.18 release.
From this release on, the release notes have been set up differently to allow the various user types to easily find the issues that are relevant to them. ***For example**, if you are a parent, you only need to look in the **Parents** category to find all issues that affect your user type.*

The focus of this release has been on improvements to the **Progress** and **End Of Semester reporting**.

Thanks to the schools that have given feedback to support@ueducateus.com.au as this feedback helps us to improve the uEducateUs system for all users.

Parents

Improvements
- The method by which Gallery notifications are sent out has been changed, to stop excessive gallery notification from being generated. Rather than sending a notification for every image added to a gallery, only one notification is sent at the end of the day advising that a gallery has been updated.
- The visibility of the payment status has been improved when viewing a consent form for a Permission Slip.

Teachers

New Features
- Reporting comments and work habits can now be managed by subject.
- Teachers can now categorise their **Sample Comments** by semester. *For example, teachers can create comments that will only show while writing their Semester 1 reports.*
- Teachers that have the designation of being **the main teacher for a class**, are now able to share reporting comments.
- Principals and teachers can now upload a digital signature to the system that can then be attached to Progress and End of Semester reports.

Students

Issues
- Fixed an error in the reporting of the last 5 Task Results in the Student Tasks view.

Administrators

Improvements
- Optimised the compile / recompile time of reports after they have been edited.

- Added the ability to identify a staff member's job description within their user profile. This information will be displayed in the Admin and Teacher overview table to allow admins to better categorise and identify staff members.
- Added a column to the Admin and Teacher overview table that identifies the staff member's campus.
- The settings and options relating to F-10 Reporting have been moved to the Reporting module. From the Main menu, select: **Reporting** >> **F-10** and then click on the **Management** button.
- The **school values** comment can now be attached to all student End of Semester reports schoolwide. The settings are located in the **Management** section of the **F-10** reporting page.

Issues

- Resolved an issue that was experienced when printing reports with an odd number of pages.
- Resolved an issue that was causing a **Disallowed Key Characters** error in the Permission Slips section.

The School For Student Leadership (TSFSL)

These improvements were requested by, and tailored to, the School For Student Leadership's school and campuses within the uEducateUs system.

Improvements

- Add new PDF template for TSFSL.
- Change Curriculum Report scoring for TSFSL.
- Ability to add an overall principal to a school (Reporting related) for TSFSL.
- First Aid kit summary can be printed and added to excursion kits for TSFSL.
