

1.18.2 Release notes

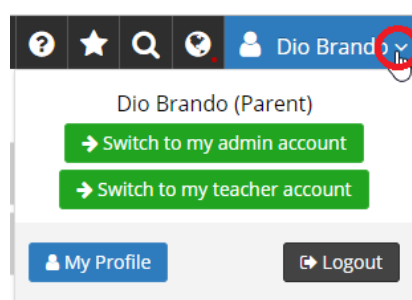

Welcome to the uEducateUs 1.18.2 release.

The focus of this release was minor issue fixes and improvements to the Parent Teacher interviews and Reporting sections, as well as other various improvements and issue resolutions.

We encourage your feedback, as this feedback continues to help drive the direction and content of our release cycles.

Do you have multiple logins for different user types? Now you can easily switch between them...

Up until now if you are a user that has multiple user accounts, you were required to log out of the system and log back in again as the other user type (using a different user name and password). From now on, you can simply click the down arrow to the right of your name at the top right of the application and select the account that you wish to switch to from the list:

Note: If you currently have multiple logins (for example; you are a parent and a teacher within the school), and they are not appearing in your list, please raise a support ticket by emailing support@ueducateus.com.au and let us know, so we can rectify it for you promptly.
